ABOUT

My name is Jaksa Setia Alam, and I am an Informatics student at Universitas Nasional with a strong passion for programming, particularly in web development. I have hands-on experience as a Full-Stack Developer Intern, where I worked on scaling responsive UI designs, building RESTful APIs, and implementing dynamic data fetching for real-world web applications.

EDUCATION

Universitas Nasional	Jakarta, Indonesia
S1, Informatika	2022 - Now
IPK: 3,84 / (131 SKS)	

EXPERIENCE

Universitas Siber Asia	Jakarta, Indonesia
Full-Stack Developer Intern	2025
- As a Frontend Developer, developed the Learning Management System (LMS) website by slicing Figma designs and implementing them into responsive code. - As a Fullstack Developer, built the event website by slicing Figma designs, integrating APIs to display real-time event data, and developing backend APIs to support the platform. - As a Quality Assurance (QA), tested the official website by verifying button functionality, ensuring design consistency, and validating responsive layouts across multiple devices.	

ORGANIZATION

Himpunan Mahasiswa Informatika	Jakarta, Indonesia
Interest and Talent Development	May 2024 – Now
- Designed and developed the Indonesian Plastics Recyclers website as a Front-End Developer. - Served as a mentor for IoT-Based Smart Trash Can Development at SMK Kemala Bhayangkari Delog. - Organized coding competitions, workshops, and digital skills training for students.	
Informatics Coding Community	Jakarta, Indonesia
Leader	September 2024 – Now
- Mentored new students in mastering programming fundamentals. - Led a community that supports coding skill development, professional networking, and staying updated with competitions and industry trends. - Focused on project collaboration, practical learning, and preparing students for future careers.	

SKILLS

Web Development: HTML, CSS, NextJS, Typescript.
Tools: Visual Studio Code.
